Safeguarding Children who are Victims of Domestic Abuse

25 - 29 November 2024

Approximately 1 in 7 children are victims of domestic abuse. Children do not 'witness' domestic abuse; they are recognised by law as victims in their own right. Safeguarding child victims is inherently complex. It underscores the need for a whole family approach and effective collaboration across a wide range of services. [LEARN MORE](#)

DOMESTIC ABUSE TOOLKIT FOR PROFESSIONALS

Developed in collaboration with the Hampshire Domestic Abuse Partnership (HDAP), this toolkit aims to provide a coordinated response to domestic abuse. It is available to multi-agency professionals working with children and families and includes essential information on the Hampshire Domestic Abuse Strategy, the effects of domestic abuse on children, and practical tools and resources to support practice.

DOMESTIC ABUSE TOOLKIT FOR PARENTS AND CARERS

Specifically developed for parents and carers, this concise resource is designed to help identify domestic abuse. It serves as an excellent starting point, offering essential information and connecting users with local and national organisations that support child and adult victims, as well as perpetrators of domestic abuse.
